

John Goose Galliford Try Project Manager Updates:

Progress made in the month:

- All works substantially completed along with the defects.
- Onsite Commissioning works now completed.

Activities Planned for next month:

- Additional works planned to commence mid December 2024 to upsize some outlet pipe works.
- Further additional works are planned to commence Mid-January 2025 to change over some pumps.
- The additional works will entail a small site set up due to the small nature of works, vehicle movements in and out of the site will be minimum.
